## INTERESTING PROJECTS

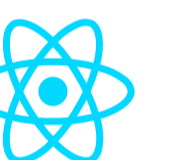

### CCTV service - *Current Project*

CCTV Module Is The UI Part Of Cctv Service Which Is A Traffic Management Webapp . This Service Has Been Developed Using The Reactjs Technology. The Service Contains All The UI Operation Of CCTV SERVICES And Responsible For Operating And Streaming The Camera.

- My Contribution:** I Am Mainly Responsible For Its UI & Frontend Development. I Used Reactjs + Redux + Websocket For Camera Streaming.

### SecurityPlus

Security Guard Management Software (SaaS Product). Security Operations Leading To Improved Operational Efficiency And On-Site Guard Performance. It Simplifies The Way Of Managing Schedules, Reports, Guards, And Clients.

- My Contribution:** I Was Completely Responsible For Its UI, UX & Frontend Development. This Portal Is For Security Guards & Their Companies. We Prefer Reactjs For Managing Security Guards Schedules, Reports, Guards, And Clients By Their Company. In The Frontend, I Used Reactjs & Scss For Styling

[Read SecurityPlus Use Cases](#)

### YellowSquash

YellowSquash Is A Community-Based Marketplace For Global Wellness Entrepreneurs (Both In Services And Products). They Provide Platform And Technology To Enable Sustainable & Holistic Wellness Professionals To Be Successful, Right From Generating Leads, Sales, Execution And Tracking.

- My Contribution:** I Was Completely Responsible For Its UI, UX & Frontend Development. This Portal Is For General Public, So It Must Be Fast & SEO Friendly. So We Prefer Nextjs Technology. In The Frontend, I Used Nextjs & Scss For Styling.

### Aadesh Travels

Aadesh Travels Is One Of The Leading Names In Travel Fraternity. Portal This Portal Is For Travel Agencies To Help Them To Book Tickets For Their Client.

- My Contribution:** I Built This Webapp From Scratch. I Was Completely Responsible For Its UI, UX Development. I Built This On Angular Technology & SCSS For Styling For This Portal
